

## WILSON TO PRACTICE LAW WITH COLBY

Announcement of Opening of Offices in New York and Washington is Made

(By Associated Press)  
Washington, March 3—Bulletin—President Wilson announced today he would "resume practice of law," in partnership with Bainbridge Colby, retiring Secretary of State. The firm will maintain offices in New York and Washington.

The President's announcement, wholly unexpected, will recall to the public mind one of his least known attainments—that of being a lawyer. He graduated in law from the University of Virginia in 1881 and practiced in Atlanta in 1882 and 1883. In 1885 he began his career as a college professor.

No announcement was made of the character of practice the new firm will take up but the presumption is it will be international law and collateral work. The office announcement is taken to mean that Colby will have charge in New York and Wilson will look after affairs here. Perhaps no announcement of any nature surprised Washington more during recent months.

Undoubtedly there will be much international law business in the next 50 years arising out of the world war. Wilson's store of information on international affairs is very wide.

## G. O. P. LEADERS FALL DOWN ON NAVAL BILL

(By Associated Press)

Washington, March 3—Senator Poindexter, in charge of the naval appropriation bill, today announced he had abandoned hope of passing it at this session. Withdrawal of the bill threw the whole pre-adjournment program into confusion. Leaders said frankly they did not know what will be done, but agreed there is no chance for any further important legislation. With reference to the naval bill, Poindexter asserted "the country is facing a serious situation, to meet which we are unable to legislate." He attributed the failure to enact the bill at this session to a number of things, the chief of which was the late date the bill was received from the house and inadequacy of the issue of bill provisions, which Poindexter said failed to meet the British naval program.

## State Wins Honors in the South

The University of Kentucky won the basketball championship of the south at Atlanta by defeating the University of Georgia 20 to 9 in the S. I. A. A. tournament. However, Centre College defeated State once and State Centre once. The only way the real championship can be settled is to play off this tie. Otherwise Centre is as much entitled to claim the championship as State.

## Wages Coming Down in State

(By Associated Press)

Louisville, Ky., March 3—The wave of wage reduction that has swept the country during the past few months has not missed Kentucky, according to John Doyle, business agent for the International Association of Machinists. He cited several instances where recent reductions have affected a considerable number of men.

The general reduction on all lines, according to Mr. Doyle, seems to be about 25 per cent, while in some a straight reduction of ten cents an hour has been made. Nor are the men in the ranks the only ones who have felt the reductions he claims. Superintendents in some instances are reported to have had their wages reduced almost 5 per cent, while foremen and office employees are drawing lower wages than formerly. ## JUDGE GILBERT TAKES HIS SEAT IN CONGRESS FRIDAY, MARCH 4

The above is from a new picture of the popular new Congressman from the Eighth Kentucky District, Hon. Ralph Gilbert, of Shelbyville, who officially becomes a member of the House of Representatives tomorrow, Friday, March 4th, 1921.

It is a matter of much interest here that his Private Secretary will be Rhodes Shackelford Terrill one of the best known young men and democrats of Madison county. Mr. Terrill is making arrangements now to go to Washington now to go to Washington with his chief and take on his duties. It is understood that Harvey Wilkinson, of Stanford who was with the late Congressman Harvey Helm for several years, will be associated with the office staff of the Congressman also.

The following is a sketch of the life of Gilbert, as sent out by the Associated Press:

Ralph Gilbert, democrat, new representative from the Eighth district of Kentucky, begins his first term in the House of Representatives with the convening of the Sixty-seventh Congress. Representative Gilbert was born in Spencer county, January 17, 1882. He was educated in the common schools of Spencer county, graduated from the University of Virginia in 1908 and in 1909 graduated from the University of Louisville law school. He at once took up the practice of law at Shelbyville.

In 1909 he was elected County Judge of Shelby county, holding that office for eight years. When he retired in 1918 he formed a partnership with W. T. Beckham. He was nominated for Representative in a three-cornered race with Frank L. Rippey, of Lawrenceburg, and George T. Davis, of Casey county, and was elected over King Swope, republican incumbent, by more than 2,000 majority.

Representative Gilbert in 1903 married Miss Jane Thompson, of Shelby county. They have three daughters.

An interesting bit of history in connection with Representative Gilbert's election, is the fact that his father, George G. Gilbert, represented the Eighth district in Congress for four terms, from 1899 to 1907.

A number of papers over the district are saying nice things about the new Congressman. The Danville Advocate had this the other day:

Congressman Ralph Gilbert, of Shelbyville, was in Danville a few days ago and stated that he will leave for Washington City in a day or two, on the fourth of March, he will take the oath of office as the Representative in the lower House for the Eighth district of Kentucky. Congressman Gilbert is a conscientious man and is desirous of representing all the people to the best of his ability.

## BURNS OF ONEIDA SUFFERS BREAKDOWN

Founder of Famous Mountain Institution Ill While Campaign For a Million Is On

While friends of Oneida Baptist Institute are endeavoring to raise a million dollars as an endowment of the famous mountain school, James A. Burns, better known as "Burns of the Mountains," founder and president of the school, is suffering a physical breakdown and is ill at a resort in Dania, Fla. He recently was forced to abandon the lecture field, in which he was actively engaged in an effort to further the work of the school among the mountaineers. Rev. O. O. Green, of this city, is a trustee of Oneida, and greatly interested in its work.

Mr. Burns, himself at one time a feudist, literally carved out Oneida Institute with his own hands. In his early days as teacher and preacher he decided that a school was necessary to get rid of the mountain feuds. Having no money he started out single handed to erect such an institution. The first building, "McMurray Hall," was built on a stone foundation which, more than 20 years ago, the head of the school carved with stone cutter's tools fashioned out of an old crow bar.

Since that time persons who have become interested in the school have provided a number of buildings, including Marvin Hall, the gift of Dr. and Mrs. Marvin, of Louisville, and which contains eleven recitation rooms and large chapel.

The other buildings are Carnahan Hall, a girls' dormitory with accommodations for 60 girls; Anderson Hall, which is used as a domestic science school and home for the women teachers, and the "Bungalow," which is used as a boys' dormitory.

Oneida Institute is located 11 miles from the nearest railroad. Material for buildings, which had to be purchased from outside points, was hauled 40 miles from Barboursville.

"The future of the country depends on the right kind of housekeepers," said T. L. Adams, the associate president of the school. "The work being done will raise the standard of the mountains. The time is coming when we will have to have more room at the school and it is toward this we are working. With proper accommodations it would not be difficult to build up a school of 1,000 students inside of five years."

## HENLY BASTIN TO MANAGE PRISON

Frankfort, Ky., March 3—Henry V. Bastin, of Lancaster, was appointed Superintendent of the Kentucky reformatory by the State Board of Charities and Corrections. He will succeed W. H. Moyer, who will leave here March 15 for Ossining, N. Y., where he will resume his work with the Presbyterian institution which looks after the welfare of dependents of prisoners.

Bastin is 38 years old, married and has three children. He attended the University of Kentucky and Purdue University. He is a graduate electrical engineer and at present is president of the electric light company of Lancaster.

In selecting a superintendent for the reformatory J. P. Byars, commissioner of the board, said that the board made an effort to find the best man in sight for the place. He said that Bastin was not an applicant for the place, but on the contrary the place sought the man.

Mr. Bastin will arrive here Sunday to remain until he takes charge of the reformatory.

Henley Bastin has many warm friends here, who are gratified that he is given a good paying position. He is republican committee man from the 8th district. He has no previous experience in such work, but is a splendid, progressive young business man and if a man wholly without expert prison management experience can make a success of the difficult work, his friends say that Bastin can.

Deputy Sheriff Ed Warford has received a letter from Walter S. Buchanan, national aide-de-camp of the Army and Navy Union, which will be of interest to Spanish War veterans. He says in part:
